

Multiple automatic cutting machine

Factories

Cutting rooms

Catering

Ideal for cutting dice, strips, slices or grated... for the garnish and preparation of salads, pizzas, skewers...

Suitable for all types of products: red meats, poultry, cheeses, fish, vegetables and fruits...

Suitable for small, medium and large productions... depending on the model.

The **TD** are ideal for:

Cheeses

Sausages

Meats

Fish and seafood

Vegetables

TD-90 /96 /90+ /96+
For small productions of less than 1400kg/h.
Up to 560 cuts/minute

TD-105/TD-112
For medium productions of less than 2100kg/h.
Up to 800 cuts/minute

TDSH-90
Compact, for small spaces.
For artisanal businesses or industrial kitchens.
Special model for continuous cutting of fruits and vegetables.

TD-120/TD-126/TD-140
For large productions of less than 3100kg/h.
Up to 400 cuts/minute.

Features

- Easy maintenance and cleaning
- Acordande with CE rules
- Mobile with wheels
- The design and cutting angle of the blade, as well as the co-compression of the prodduct on all four sides, ensure a clean and precise cut
- Easy loading system, thanks to the total longitudinal opening of the feed drawer, ergonomically perfect
- Continuous piston feed if we use two to four-wing blades; or step by step, if we use the single-wing blade to get more accurate cubes
- After each cutting cycle, the main blade returns to its initial position, facilitating quick grid switching
- Grill sets reinforced with four anchor points, very fast change and without tools.
- Visual signal for load preparation
- The sophyctic shape of the slicer blade, ensures a powerful, smooth and clean cut
- Automatic positioning of the slider blade after each cutting cycle
- Cutting raw and cooked products at a temperature of -30C, from 4 mm
